Policy Statement:

The purpose of this Policy is to provide some guidelines for County and S.M.R.I.D. Staff to help relieve potential impacts due to flooding during Spring run off events caused by snow impeding the flow of water in drainage ditches.

Guidelines:

The County and St. Mary's River Irrigation District will cost share (50/50) the removal of snow from constructed drainage ditches where:

- A farm yard, buildings, residence or public road are threatened.
- The Administrative Staff of St. Mary River Irrigation District and the Public Works Department of the County of Forty Mile No. 8 will co-ordinate the snow removal.
